

Matty — User Manual (2025-08-08)

Overview

Matty is a web-based design tool for creating posters, banners, and social media graphics. This guide walks end users through sign in, creating designs, and exporting.

Getting Started

- 1) Sign up or log in
- 2) Open the Dashboard
- 3) Click 'New Design' or edit an existing one.

Canvas Basics

Drag shapes, text, and images on the canvas. Use the sidebar to add elements and the transformer handles to resize/rotate.

Text Editing

Double click text to edit. Use the Text Properties panel to change font size, color, and rotation.

Image Uploads

Click 'Add Image' to upload from your device. Images are stored securely via Cloudinary.

Save & Export

Press 'Save Design' to store JSON and a thumbnail preview. Export to PNG/PDF (Phase 2+) via the Export modal.

Shortcuts

Undo (Ctrl/Cmd+Z), Redo (Ctrl/Cmd+Shift+Z).

Support

If you get stuck, contact the support team listed in the Support Guide.
