Matty — Security Compliance Report (2025-08-08)

Overview
Summary of security posture for Matty MVP.

Auth & Session
JWT with short-lived tokens; refresh or re-login policy. Role-based access.

Data Handling
Design JSON in MongoDB. Thumbnails & uploads via Cloudinary with secure URLs.

Transport
HTTPS enforced on all endpoints; CORS restricted to FRONTEND_URL.

Hardening
Rate limiting (planned), input validation, dependency scanning, secrets in .env (never committed).
